Fundraising

# of people sponsoring for the specific events

Anyone you know that is interested?

\$1500 is coming from the Slate Belt Rising.

It's allocated for community events. This will help fund the events.

Talked about using money in advertising. The CACLV would prefer not to have us use it towards fundraising. They want it to be used to make the events happen. \$543 will be put towards the Block Party. The money that we want to spend on the event will need to be approved.

We can reallocate some of the money.

Our members have the right to come to the events and set up a table at the events. We want the HBBA members to have the first hand advantage. Encourage the membership. We want to be a stronger united front.
